Genetically Engineered And Optical Probes For Biomedical Applications II: 24-27 January 2004, San Jose, California, USA

by Alexander P Savitsky; Society of Photo-optical Instrumentation Engineers

Genetically engineered and optical probes for biomedical . Genetically engineered and optical probes for biomedical applications II : 24-27 January 2004, San Jose, California, USA. Click to view Publication details. Genetically engineered and optical probes for biomedical . Genetically engineered and optical probes for biomedical applications II : 24-27 January 2004, San Jose, California, USA Veröffentlicht: 2004 · Genetically . CV 1 Curriculum Vitae Yu-Ping WANG Updated . - Tulane University Genetically engineered and optical probes for biomedical applications II : 24-27 January 2004, San Jose, California, USA. Medvirker: Savitsky, Alexander P. Genetically Engineered and Optical Probes for Biomedical . Genetically engineered and optical probes for biomedical applications III : 25 - 26 . biomedical applications II : 24 - 27 January 2004, San Jose, California, USA. Genetically engineered and optical probes for biomedical - GetInfo Genetically engineered and optical probes for biomedical . Genetically engineered and optical probes for biomedical applications II : : 24-27 January 2004, San Jose, California, USA (engelsk) . search options - Wissensportal ETH-Bibliothek - ETH Zürich Journal Title: California medicine; Publisher: San Francisco : California Medical Association, . and biomedical applications II : 24-27 January 2005, San Jose, California, USA Shelf view Genetically engineered and optical probes optical probes for biomedical Publisher: Bellingham, Wash., USA : SPIE, c2004.

SPIE--the International Society for Optical Engineering, 1986. intelligence III [electronic resource] : 24-27 April, 2000, Orlando, Florida / Kevin L. Priddy, resource] : theory and applications II : 12-13 April 2004, Orlando, Florida, USA / Kevin L. .. 2004 [electronic resource] : 20-22 January 2004, San Jose, California, USA Genetically Engineered and Optical Probes for Biomedical . [.pdf]; M. Li, D. Ku, C.R. Forest, Microfluidic system for simultaneous optical . Proceedings of the Biomedical Engineering Society (BMES) 2009 Annual Fall silicon ral recording probes for 3d characterization of optogenetically modulated . National Collegiate Inventors and Innovators Alliance (NCIIA), San Jose, CA, Book Catalog: gen - vol. 134 MS in Biomedical Engineering, (Thesis advisor: Dr. Rob J. Roy).
